

# INTE 21233: Web Application Development

## Practical 1

### 1) HTML basics exercises

1. Create a webpage that prints your name to the screen
2. Create a webpage that prints the numbers 1-10 to the screen
3. Create a webpage and set its title to “This is a webpage”.

### 2) HTML text exercises

1. Print your name in green
2. Print the numbers 1-10, each number being a different color
3. Print a paragraph that is a description of a book, include the title of the book as well as its author. Names and titles should be underlined, adjectives should be italicized and bolded

### 3) HTML text formatting exercises

1. Print the squares of the numbers 1-20. Each number should be on a separate line, next to it the number 2 superscripted, an equal sign and the result. (Example:  $10^2=100$ )
2. Print two paragraphs that are both indented using the &nbsp; command.
3. Print a long quote and a short quote. Cite the author of each quote
